Editorial

It's my pleasure to present the summer issue (2022) of "Kanpur Philosophers", a peer reviewed International Journal of Multidisciplinary Approach to Research and Studies; biannually published by "New Archaeological and Geological Society" Kanpur, India, to all the academicians, scholars, researchers, students, subscribers, friends and well-wishers. I would like to pay my homage to all those who lost their lives due to pandemic. I express my gratitude to all the corona worriers, endangering their lives to the service of mankind. After witnessing two full year of distress and disruption caused to the human life worldwide and despite fresh challenges presented by the pandemic and its new variants, we are still optimistic for a better future to our coming generations and tirelessly working for the same. This optimism for a better future can be seen in the form of New Education Policy-2020, as announced by the government of India last year, after the gap of 28 long years. NEP-2020 is a welcoming step to fill the vacuum long awaited. One of the salient feature of the policy is to highlight the importance of Holistic and Multidisciplinary Education and underline the significance of Multidisciplinary Approach to research and education at all levels. I hope "Kanpur Philosophers" will remain proves to be a meeting point for the experts of various disciplines and research areas, to discuss their hypothesis and present their findings to the academia at large.

The current volume is a thick compilation of 47 selected papers and articles representing variety of disciplines and subjects i.e. Philosophy, Geography, History, Political Science, Economics, Commerce, Sociology, Education, Law, Literature, Mathematics, Theatrical Arts and Dramatics, Cinematography and few more. As well as papers came from length and breadth of India. Range of the subject areas is quiet wide and depth of the enquiry is from micro to macro level of research. However, History, Law and English literature are the two dominating subject areas covering more than 60 percent of the papers contributed in this volume. Few papers on relatively new areas of enquiry may need some mention here i.e. A paper on Desire as Seity-Enlacing Action-Based and Pleasure-Based theories in Adah in *Second Class Citizen* and Raka in *Fire on the Mountain* researchers an insight to explore new avenues for research areas and material. I believe the spectrum of papers may prove its worth to the readers.

Once again, I would like to thank all the researchers and contributors of this issue of "Kanpur Philosophers", for the timely submission of papers and their

continuous support, without which such endeavor could not take shape. Last but not least, I am indebted especially from Prof. Akhtar Hussain Sandhu from Lahore, Pakistan and Prof. Purushottam Singh from Kanpur, India, for their constant help in editing. I am thankful to the valuable contribution made by my friends and colleague Prof. Adesh Gupta from Kanpur, Dr. Balaji Chirade from Nanded as well as Dr. Kuljit Singh from Bhaderwah. I would like to express my sincere thanks to Prof. Umakanta Mishra from Sambalpur (Odisha)

Now, I would like to thank all the contributors of the current volume of Kanpur Philosophers for their timely submission of papers despite various constraints. I am actually overwhelmed with the support they have shown, without which this volume could not take shape in such a short time. Your valuable observations and suggestions are most welcome.

Atul Kumar Shukla
